## HIGH SCHOOL DEPARTMENT

THE COLLEGE OF THE IMMACULATE CONCEPTION is conducted by the Fathers of the Society of Jesus. It was founded in 1847, and for the seven decades and more of its existence it has sent forth graduates to fill posts of responsibility in every honorable walk of life.

In the fall of 1911, on the completion of the college building, Marquette Hall, of Loyola University, the Faculty transferred thither the College classes, retaining the High School Department at the building on Baronne Street.

The building offers every advantage for its present status, both on account of its spacious rooms, previously occupied by the college classes and now devoted solely to those of the High School, and on account of its location, being within a distance of only a few paces from all the important street cars in the city, while two of the principal car lines pass in front of the Baronne street entrance.

**General Plan.**—The High School Department is primarily a school preparatory for admission to Loyola University, and leads naturally to the College course at Marquette Hall. At the same time the course of studies offers as full and complete a training as can be had in any of the best High Schools in the country; and while a long and varied experience has shown that no Academy or High School can supply what is essentially the work of a college in preparing for the higher studies of the University, the entire training and the graded course of studies pursued in the High School Department offer to every student as thorough and complete an education as can be obtained within the short term of a high school course.

**System of Education.**—The method of teaching is the same as that of all Jesuit Colleges, based on the *Ratio Studiorum Societatis Jesu*. A succinct explanation of this system may be found in *Jesuit Education*, by Rev. R. Swickerath, S. J.

Undertaking the work of educating from none but the noblest motives, and altogether independent of personal advantages or private gain, the Teacher does not regard his pupil merely as a student to whom he is called upon to impart knowledge; he sees in the young boy, as the sculptor does in the rough marble, an opportunity for using all his power and ingenuity to produce a perfect masterpiece. His aim is to develop a pure heart and trained mind; he leads rather than drives his pupil, and takes a personal interest in the gradual moral and intellectual progress of those committed to his charge. Under such conditions an ideal training is secured if the pupil corresponds with the endeavors of his teacher.

**Religious Training.**—The College authorities are convinced that, without Religion, there can be no education in the true sense of the word, that is to say, no complete and harmonious development of the intellect and heart of man. They hold, furthermore, that religious truth, being definite and certain, like any and every other truth, is as susceptible of teaching as the science of language, or the theory of numbers. Hence, the Catechism of Christian Doctrine is a textbook in every class, and lectures on it are given twice a week. In all the classes the day's work begins and ends with prayer. The Catholic Religion alone is taught, but non-Catholics will also be welcome and their religious opinions studiously respected. Such students are not asked to take part in the Religious exercises of the School.

**Regulations.**—Regularity in attendance and diligent application to study are essential for success, and parents are called upon to see that both are attended to.

Each student is daily assigned work sufficient to occupy him for at least three hours at home. If the important duty of accomplishing this home work is neglected, it will be impossible for the student to attain the proficiency required for promotion, and if such neglect is tolerated parents should not be surprised at finding that their sons are not promoted.

Failure to accomplish the home work, as well as absence, for any cause whatever, from any part of the daily classes, will not be excused unless for grave cause and at the request of parents or guardians.

Each student is required every month to give proof, in a written test, of his progress in every branch that he studies. A report of these tests is sent home to be signed by the parents and returned to the Vice-President. Parents should demand these reports at the close of each month, and confer with the Vice-President if they are not forthcoming. Any note below 70% is unsatisfactory, and should not be allowed to pass unnoticed at home. In this matter co-operation on the part of parents is much to be desired, and they are invited to interview the Prefect of Studies when reports show deficiency.

The Rules of politeness, as a part of the education of youth, are rigidly insisted upon, and their violation will subject the offender to suspension, or even to dismissal. Want of respect towards any member of the faculty will not in any case be tolerated; nor will rough or ungentlemanly conduct towards companions be permitted. Anything bordering on immorality will be visited with summary expulsion.

Luncheon is served on the premises, and no student is allowed to be absent during the time of lunch. Parents are requested not to petition for their sons an exemption from this rule.

Smoking or gambling on the premises, or in the immediate vicinity thereof, is strictly prohibited.

Injury to the school property will be repaired at the offender's expense.

The High School is open to day scholars only. Boarding in the city, unless it be with relatives or intimate friends, is not recommended to applicants living at a distance.

The weekly holiday is Saturday.

Classes begin daily at 9 a. m. and end at 2:50 p. m. (at 2:15 p. m. in the Grammar School.) Catholic students are required to be present daily for morning prayer at 8:45 a. m. They are also required to receive Holy Communion in a body once a month.

**Premiums.**—A premium for excellence is conferred in each class at the close of each term. At the end of the second term one is awarded in every class for each of the studies pursued. Also at the end of the second term Gold Medals are conferred as follows: Two for Christian Doctrine; one for Latin; one for English; one for History (in IV year only); two for Mathematics; one for Science (in IV year only); two for Elocution; one for Sanctuary Service; one for Punctual Attendance, and one for Excellence in Deportment and Scholarship; a medal for Penmanship is awarded in the Grammar School only.

**Course of Studies.**—The course of the High School extends over a period of four years, at the successful conclusion of which a certificate is awarded.

The studies embrace a course in Christian Doctrine, Latin, English, Greek, Algebra, Geometry, Physical Geography, Elementary Physics and Chemistry, and Elocution. All these studies are compulsory, the Faculty being convinced that the system of allowing young boys to select their own course of study is an experiment often tried and long ago found wanting.

In addition to these studies each student is required to pursue a two year course in either French, Spanish, or German. Typewriting, Stenography, Mechanical Drawing and Book-keeping are offered as extra courses.

In requiring the study of Latin and Greek it is not at all intended to prescribe a course of studies suitable for those only whose future career will require a knowledge of these languages. Indeed it is well known that the great majority of High School graduates are not called upon, in after years, to use the knowledge they may have acquired of Latin or Greek; even Algebra and Geometry do not come into direct service in the case of many. But there are other motives for applying to these studies besides the practical usefulness to be derived from the knowledge they impart. Their power as a means of training a boy's mind is universally acknowledged, and it is the common consensus of the best educators that nothing can

take the place of Latin and Greek in preparing the young boy for his future course of higher studies, or for the responsibilities in life that demand acuteness of intellect and sound judgment. A keen intellectual power is developed by the severe training and the constant drilling gone through in the study of the Authors. For this reason deep study is insisted on more than much reading. There are schools in which, by means of convenient translations, the student is made acquainted with the matter of a large number of the writings of the Latin and Greek authors; such information is useful, but this is not the study of Latin or Greek. The system followed in the Jesuit Colleges and High Schools demands a thorough study and analysis of certain authors selected for each class, and while a broad field is offered for reading and general information, these authors are made the subject matter for Examination, and the student is required to have a minute and exact knowledge of both the matter and the language.

Not every boy has a taste for the study of the classics nor is the study of the ancient languages equally easy for all. But there can be little training of either mind or will where a boy's studies are selected according to the ease and pleasure with which they can be accomplished. It is by meeting and surmounting difficulties in the course of his training that a boy is prepared to overcome obstacles of a more serious nature in after life.

Perhaps the greatest advantage that a boy derives from the study of the ancient languages is the direct help he gets therefrom in acquiring a complete knowledge of his own vernacular. Experience has shown that the boy who studies Latin has a better knowledge of English, and writes it better, than the boy who takes what is called an "English" or "Scientific" course, omitting Latin from the curriculum.

Students who are exempted from any of the prescribed studies are entered as "special" students.

French, Spanish and German are elective studies in the sense that, while each student is required to take a course in one of them, he is allowed to choose which one of them he will pursue.

**Promotion.**—Examinations in all the branches are held at the end of January and in June. Promotion depends on the average note secured in these examinations and in the monthly tests. In order to be promoted students are required to attain at least 70% in every branch. This rule is absolute. Students who have failed to secure this percentage during the year will be allowed an examination (*in writing*) in the beginning of September, provided the general average of all their marks is not less than 70%. In the case of one who has failed to secure this general average the Faculty deem withdrawal preferable to promotion.

Any holder of a scholarship who falls below 85% twice forfeits the scholarship.

Former students applying for a detailed certificate of standing must pay the Registrar's fee of \$1.00. No such certificate will be issued to a student who has failed to satisfy all of his monetary obligations to the College.

**Athletics.**—Field sports and athletics are encouraged among the students within reasonable limits. For this purpose there is formed an Athletic Association, consisting of a Board of Student Officers, a member of the Faculty as Moderator, and as many of the students as desire to become members. Only those students, however, are eligible as members of the association whose standing in discipline, and application to study, is satisfactory. Thus it is intended that athletics should not only be no impediment to serious study, but even become a means of promoting intellectual progress as well as of affording needed relaxation and physical exercise.

## REQUIREMENTS FOR ADMISSION

---

Candidates for admission to the High School, if not already known to a member of the faculty, must present a testimonial of good moral character. Students who have completed the eighth grade in a Parochial or Public school are eligible for admission, and certificates of such schools of good standing will be accepted. Those who have not such certificates will be required to pass an examination. Entrance examinations are held each year in June and at the beginning of September. Candidates that win the highest honors in the June Examination secure thereby the scholarships for the High School course which are open that year. Arrangements for these examinations should be made at an early date.

The subject matter for examination is as follows:

**1. English.**—Orthography—The use of capitals—Parts of Speech and their modification—Syntax—Classification of sentences, according to use and form—Analysis of Compound and Complex sentences. The applicant will be required to compose a short letter or simple narration on a given subject, as a test of his ability to write grammatical English.

**2. Arithmetic.**—Common and Decimal Fractions—Denominate Numbers—Percentage and its ordinary business application—Simple and Compound Interest—Ratio and Proportion—Square and Cube Roots.

**3. History.**—Chief epochs and events in United States History—General information concerning the principal historical personages who figured in these events.—Some knowledge of the causes and results of the wars and political changes.

**4. Geography.**—The Countries of the World—Their division into Continents—The political Divisions of each Continent—Form of Government of the various countries—The Capital, chief cities and rivers, and staple products of each country.

## GRAMMAR SCHOOL

---

The Grammar School is a preparatory school for students, whose previous studies have not sufficiently fitted them for admission to the High School Department. The regular course of this department extends over a period of one scholastic year. Students, who have completed the seventh grade in a Parochial or Public School, are eligible for admission, provided they have received a certificate of good standing from such schools; those that have not such certificates will be required to pass an examination. Entrance examinations are held each year at the beginning of September. No student is promoted from Grammar School to High School except at the end of the scholastic year. The students of the Grammar School are subject to the same general regulations as those of the High School.

## SCHEDULE OF STUDIES

## ST. CECILIA COLLEGE CHOIR

---

The object of this society is to afford the students an opportunity to acquire musical culture, and to enhance the splendor of divine service. Members of this organization sing in the church at all the services in which the student-body participates—the daily morning prayers, weekly mass and monthly communion—as well as on solemn festivals together with the church choir men.

## SCHOLARSHIPS

---

The scholarships for the High School Department are of two kinds, course scholarships and perpetual scholarships.

A course scholarship entitles the holder to the four-year course of the High School Department, and a certificate on its successful completion. By means of such scholarships deserving students, selected by the donors of the scholarship or by the College authorities, or by competition, are enabled to make the full High School course. These scholarships are sixty dollars per year.

But course scholarships, by their very nature, cease with the graduation of the holders. What is practically needed and most desirable is the foundation of perpetual scholarships, that is, an endowment sufficiently large to yield an annual interest that will cover the yearly tuition fees of one student. These endowed scholarships are estimated at \$1,200.

The following are among those who have given scholarships.

### PERPETUAL SCHOLARSHIPS

THE MARINONI FAMILY,  
MRS. WILLIAM AGAR,  
MR. HUBERT MURRAY,  
MRS. E. J. BOBET,  
A FRIEND OF EDUCATION,  
POOR BOY'S SCHOLARSHIP,  
FOUR SPECIAL SCHOLARSHIPS.

## FEES AND EXPENSES

---

As the College is not endowed, it is entirely dependent for its support on the fees paid for tuition.

Tuition per month (payable in advance).....	\$6.00
Use of Chemicals, etc., (one year only).....	5.00
High School Certificate.....	5.00
Athletic fee, per year.....	2.50

N. B.—No deduction is made for absence.

There is an additional charge of 50c. for each conditioned examination.

Books and stationery are furnished by the College at current prices.

Degrees are not granted until all indebtedness to the College is settled.

Application for Admission should be made to the Reverend President or Vice-President. Students can enter at any time of the school year.

## ACKNOWLEDGMENTS

---

The President and Faculty wish to express publicly and in an especial manner, the gratitude with which the College recalls and cherishes the memory of its past and present benefactors. The Messrs. Bernard, Patrick and Hugh McCloskey at their own expense erected the superb College Annex now occupied by the Junior Department. The Thomas J. Semmes Memorial Chapel is the Munificent Gift of a noble wife fittingly perpetuating the memory of her illustrious husband in the College he loved so well.

The College also desires to express its gratitude to Mrs. S. B. Denegre, Mr. J. B. Levert, Mr. Nicholas Burke, Mrs. N. Hanton Burke, Mr. Lawrence Fabacher, Mr. Joseph Burguières, Mr. Francis R. Johnson, Mrs. Andrew Johnson, Mr. James Sinnott, Mr. Anthony Vizard and other true friends who generously contributed to the building fund.

The College hopes that these noble examples will arouse in others, blessed with ample fortune, the desire to emulate the above-named donors and to advance the cause of Christian education, by assisting in the construction of the contemplated Science Hall and other buildings forming an essential feature in the original plan.

The President and Faculty express their grateful acknowledgment also to the various departments of the U. S. Government and of the Smithsonian Institution for contributions to the College Library and Museum.

To the generous benefactors who have given Perpetual and Annual Scholarships to the High School Department.

To Dr, Paul Riess, Dr. J. A. Danna, Dr. S. M. Blackshear, Dr. Denegre Martin, Dr. N. Thiberge, Dr. M. Soniat, Dr. T. Duggan, Dr. H. Dupuy, Dr. P. B. Salatich, for professional services.

To Donors of Medals for excellence in the different studies.

To Mr. Charles B. Eble, for palms, ferns and flowers on many occasions.

To Mr. L. Augustin, for a scholarship in the Augustin Business College, and other favors

To Mr. Charles E. Staub.

To the local press for numerous acts of courtesy.

To Mr. J. E. Merilh.

To Mr. J. T. Gibbons.

To Mr. P. E. Burke.

To Mr. G. A. Ruhl.

To Dr. James Nix.
